

Jacqueline Hames

A Collaborative Genealogy Project as part of The Genealogy Event in Limerick City, Ireland on 22nd and 23rd August 2014.

Moderated by the Irish Ancestry Research Centre (IARC).

August 2014.

1. Jacqueline Alice Hames (nee Fromm, and previously married Sheahan), born 1941 in Australia and living near Adelaide, has completed a good deal of research into her family history.
2. She heard about 'TheGenealogyEvent 2014' in Limerick and wrote a lovely letter to the Strand Hotel in Limerick City. She doesn't use a computer, prefers to write letters but does have extended family who can help with computers.
3. From the letter we see that part of her family heritage connects back to Limerick, Ireland in the early 1800s.
4. Specifically, Adam Young and Mary (nee Lahife/Lahive/Latner) married 20 Sept 1813 and went on to have 7 children: John, Charles (died young), Henry, Andrew, Adam, Mary and Charles Henry.
5. Charles Henry is the GG Grand-father of Jacqueline and was christened in St Mary's Cathedral, Limerick, 1st June 1823.
6. The family moved to the UK in mid 1820s and Henry, Adam and Andrew were born there in Middlesex.
7. Charles Henry emigrated from the UK to Australia aboard the 'Julia' in 1850 to South Australia, arriving in Port Adelaide 24 Aug 1850.
8. Charles Henry married Margaret Bonas (who had also emigrated from the UK a year earlier) on 23 August 1854 and they had 7 children, and the lineage continued in Australia thereafter – see attached family tree
9. Jacqueline, now in her 70s wants to find out as much information she can on the Irish side from the early 1800s. Adam Young appears to have been born in Kilfinnane, County Limerick around 1796, Mary Lahife born in Kilaclug, Mitchelstown, County Cork, also 1796.
